

DAILY COVID-19 UPDATE

March 16, 2021

WHAT HAPPENED TODAY

In [remarks](#) at the White House yesterday, President Joe Biden announced that in the next 10 days, his administration will reach the goal of administering 100 million COVID-19 vaccine doses at the same time that 100 million stimulus checks are distributed under the American Rescue Plan.

Also, the Centers for Medicare & Medicaid Services announced that for coronavirus vaccines administered on or after March 15, Medicare will increase the reimbursement from \$28 per shot to \$40 for single-dose vaccines and \$45 to \$80 for a two-dose regimen. This higher payment rate is part of an effort to ramp up the number of COVID-19 vaccines being administered each day, boost the number of healthcare providers that can administer the vaccine, and increase the number of vaccination sites.

Additionally, the Federal Reserve ("Fed") is expected to release its updated economic projections this Wednesday. The Fed will likely note improving economic conditions, while continuing its current level of interest rates and bond purchases.

LATEST STATISTICS

142,918,525 COVID-19 vaccines have been distributed in the U.S and 72,135,616 Americans have received the first dose.

There are a total of 120,520,156 confirmed cases worldwide, 2,665,874 deaths and 68,353,073 people have recovered.

There are 29,534,162 confirmed cases of the coronavirus in the U.S. and 536,622 deaths.
