Equipment Financing Volume

According to the Equipment Leasing and Finance Association’s (ELFA) 2023 Survey of Equipment Finance Activity, in 2022:

- Agricultural equipment represented 14.8% of equipment financing new business volume reported by ELFA member companies, up from 14.4% in 2021.
- As an end-user of equipment finance, the agriculture industry represented 16.4% of new business volume reported by ELFA member companies, down from 16.6% in 2021.
Agricultural equipment was the second most-financed equipment type and the agriculture industry was the second ranked end-user industry in share of new business volume reported by ELFA member companies.

According to the Equipment Leasing & Finance Foundation’s 2022 Equipment Leasing & Finance Industry Horizon Report:

- Nearly 8 in 10 businesses (79%) that acquired equipment and software used at least one form of financing to do so (i.e., lease, secured loan or line of credit).
- Total public and private sector equipment and software investment expanded to $2.0 trillion in nominal terms. Approximately 57% of this investment was financed, yielding an industry size estimate of about $1.16 trillion.
- Of private sector equipment and software investment, 61.8% was financed.
- Leasing was the most common financing method (used by 26%), followed by secured loans (19%) and lines of credit (17%).

**Investment**

According to the Foundation-Keybridge Equipment & Software Investment Momentum Monitor:

- Agriculture machinery investment improved 29% annualized in Q2 2023.
- In October 2023 agriculture machinery investment was down 25% year over year.
- Agriculture machinery investment growth is likely to remain weak or negative through the end of Q1 2024.

**Agricultural Machinery Manufacturing Industry**

According to the U.S. Bureau of Economic Analysis:

- In 2022, agricultural machinery investment was $41.8 billion.

According to Dun & Bradstreet First Research:

- The U.S. agricultural machinery manufacturing industry includes about 1,000 companies with combined annual revenue of about $25 billion.
- The U.S. industry is highly concentrated with the 50 largest companies generating about 80% of revenue.
- Imports of agricultural equipment, primarily from countries such as China, Germany, Mexico, Japan and Canada, make up about 60% of the U.S. market.

According to ResearchandMarkets.com:

- The U.S. agriculture equipment market increased by 2.8% in 2022 year over year.
- U.S. farmers have been able use federal government initiatives to facilitate credit and improve operations on agricultural machinery purchases.
- The share of the second-hand agriculture equipment market in the U.S. increased as commodity crop prices fell and loans to farmers tightened.
- John Deere, CNH Industrial, and AGCO dominated the U.S. agricultural equipment market with a collective market share of over 40% in 2022.

**Tractor and Combine Sales**

According to the Association of American Equipment Manufacturers (AEM), in September 2023:
Total U.S. farm tractor sales were 21,008, down 4.3% from 21,959 sold during the same month in 2022.
Year-to-date, the total of farm tractors sold was 193,278, down 8.2% from 210,511 sold through September 2022.
Sales of self-propelled combines were 896, down 0.9% from the same month in 2022.
Year-to-date, 5,694 self-propelled combines were sold, up 25.3% from the same period in 2022.
