Hot Legal Issues in

What are the latest developments and trends in the law affecting equipment finance?

The Truth About the CCPA

The highly-anticipated California Consumer Privacy Act (CCPA) took effect on Jan. 1, 2020, leaving some businesses scrambling to understand the applicability of the CCPA's expansive obligations. The [March/April 2020 Leasing Law column](#) by Amanda R. Lawrence, Moorari K. Shah, Sherry-Maria Safchuk and Doris Yuen debunked three key misconceptions about the CCPA's applicability, including:

- Misconception #1: The term “consumers” does not include individuals involved in commercial transactions.
- Misconception #2: Financial institutions subject to the Gramm-Leach-Bliley Act are exempt from the CCPA.
- Misconception #3: The business-to-business exemption applies to all personal information collected in commercial transactions.

The Governing Law Provision Doesn't Always Govern

It is standard practice for parties to a contract to agree to the application of a certain state and/or jurisdiction's law, otherwise known as a “choice of law” or “governing law” provision, and/or a forum selection clause of a contract. However, various jurisdictions are finding an increasing number of exceptions that may invalidate governing law and/or forum selection clauses, potentially resulting in ramifications for which any lender and/or lessor in the equipment leasing and secured lending industry may have never bargained. In the [May/June 2020 Leasing Law column](#), Marc L. Hamroff and Julia Gavrilov touch on a few of these exceptions as they may apply to your business.

Understanding the LIBOR Transition

The London Interbank Offered Rate (LIBOR) is the most widely used reference rate in the world, used to set the rates for a wide variety of financial transactions, including business loans, corporate bonds and derivatives. LIBOR serves as a reference rate for tens of millions of transactions worth more than \$400 trillion globally. However, regulators worldwide have called on market participants to prepare for a transition away from LIBOR by the end of 2021 and a global effort is underway to replace LIBOR by that date. The [Summer 2020 Leasing Law column](#) by Emily Speak gives a brief overview of why the LIBOR transition is happening, the organization leading the U.S. transition, the rate expected to replace LIBOR and key steps for legal counsel advising equipment lenders that have loans or agreements with LIBOR as their adjustable interest rate.

The Law Says It Is Inventory

Most goods financed by the equipment finance industry spend at least part of their existence as “inventory” as defined by the Uniform Commercial Code (UCC). Failing to understand when goods constitute inventory can have disastrous consequences for equipment lenders and lessors. Understanding early in the financing process that transactions can be considered inventory can prevent problems for a finance company's business, its customers and the vendor of the goods throughout the process. The [October 2020 Leasing Law column](#) by Ryan Thompson examines what constitutes “inventory” under the UCC, why it matters and tips for avoiding the “inventory” trap.

Equipment Finance

Here's a list of some of the top legal issues facing ELFA members:

Air, Rail and Marine Legal Update

Given the wide spectrum of state, federal and international legal considerations when financing rail, marine and aircraft assets, participants in those financings must not only be and remain aware of prospective or existing changes in those laws, but also must consider how best to conform their transactional practices and policies when entering into and managing rail, marine and aircraft financings. The [November/December 2020 Leasing Law column](#) by Bob Goldberg, Edward Gross, Marjorie Krumholz and Melissa Kopit outlines regulatory initiatives, new implications of long-standing legislation and published commercial law opinions, all relating to rail, marine or aircraft financings during the previous year.

5 Things Traditional Lessors Can Learn from Our Fintech Counterparts

With a goal of bringing speed and simplicity to the industry, Fintechs have emerged as a disruptive force to traditional sources for equipment finance and leasing, including banks, captives and independents. The [January/February 2021 Leasing Law column](#) by Scott Adams examines several legal areas where Fintechs have challenged the status quo and provide new ways of thinking about longstanding pain points, including: (1) Transaction Complexity and Legal Documents; (2) Creativity for Navigating UCC Requirements; (3) Security, Fraud Risks and Mitigation; (4) Regulatory and Legal Structure; and (5) Collections and Recovery.
